

DESIGN PORTFOLIO

INTRODUCTION

HELLO, I'M NAMEERA TAHER

I'm a final-year AI & Computer Science student at the University of Birmingham Dubai, set to graduate in June 2026. Over the years, I have developed a passionate interest in design, be it Graphic Designing for social media or UI/UX for websites.

With an eye for detail, I have designed branding + promotional graphics for various events and clubs at the University. I'm seeking out opportunities to not just portray my creativity in the field and hone my skills, but also to learn and grow.
